

PROPOSED RULE CHANGES – June 22-2017

Below are the changes that are being proposed for all of the District's Rules and Regulations. Please respond with any comments prior to the July board meeting where they will be discussed.

Removed the 2 in 10 rules – B.3.4.4 through B.3.4.7. This rule is not needed. Non-irrigated certified irrigated acres will be calculated.

All references to wells in Section B-5 were removed because it is already covered in State Statute.

Violations – Section E – These changes made to reflect the changes in State Statute and on our attorney's recommendation.

Section E-Rule 11 – Not necessary. This is handled in the irrigation runoff procedures.

Unless otherwise marked, the removal of all other sections reflected duplication in the Rules & Regulations.
