Follow Central Platte NRD:

Serviceberry

(Amelanchier canadensis)

Also known as Juneberry and Saskatoon, is popular for its good tasting fruit similar to blueberry in its looks and taste. Slow-growing, mid-to-tall, thicket-forming shrub blooming in late spring.

Big game browse on the leaves and twigs while song-birds and upland game savor the fruit.

Height at maturity: 5-10'

Spacing within rows: 6-10'

Spacing between rows: 12-16'

Midwest Crabapple

(Malus baccata var. Mandshurica)

Medium-sized tree with rounded crown. Extremely hardy/disease resistant. Small apples 1/4 - 1/2" in diameter makes excellent wildlife food through fall and winter.

White blossoms attractive during the spring. Good for single row windbreaks, and between the central & outside rows of multi-row windbreaks.

Height at maturity: 12-16'

Spacing within rows: 8-12'

Spacing between rows: 12-16'

Flowering Small Acreage Package

*For landowners that want to plant
a variety of trees.*

Common Lilac

(Syringa vulgaris)

Suckering, upright medium tall shrub that is best located in outside row of windbreaks. Fragrant white to lavender flowers bloom during May.

Lilac is rarely used in wildlife plantings since it does not form thickets and seeds have little food value.

Height at maturity: 5-8'

Spacing within rows: 6-10'

Spacing between rows: 12-18'

Red-Osier Dogwood

(Cornus sericea)

Open, spreading, multi-stem, medium to large shrub. Used for farmstead and field windbreaks and riparian plantings. Horizontal branches at base. Fruit & twigs used by several species of wildlife, such as robins, cedar waxwings, rabbits & deer. Provides dense cover for a large number of wildlife species.

Height at maturity: 5-10'

Spacing within rows: 6-10'

Spacing between rows: 12-16'

Caragana

(Caragana arborescens)

Caragana, also called Siberian peashrub, is a large upright shrub. Provides dense cover for wildlife and is ideal for the shrub row in windbreaks.

Caragana is adaptable to conditions of extreme cold and wind. It tolerates a wide range of soil types, including alkaline and saline soils.

Height at maturity: 4-6'

Spacing within rows: 6-10'

Spacing between rows: 12-16'
